

SILICONE SEALANT

DESCRIPTION

JOHNBERG SILICON is a versatile, high performance silicone sealant which reacts with atmospheric moisture to produce a flexible silicone rubber, ideal for a wide variety of general purpose joint sealing and glazing applications.

Area of use

The high modulus and outstanding physical properties of silicone allow for sealing a wide variety of demanding applications, such as:

Curtain Walling, included cap, toe, heel and air seals

General sealing/jointing

Silicone Structural Glazing in 2 sided systems A weather seal in butt (2 sided) and stopless (4 sided) glazing systems

Joint within curtain/window systems

TECHNICAL INFORMATION

Composition	Neutral Silicone
Color	Black
Density*	1,34
Tack Free Time	Less than 2 hours
Curing Rate	7-14 days 6mm
Application Temperature	+5°C to +35°C
